

Street Lights

We have street lights of all capacities from the best manufacturers in the market. The street lights have inbuilt solar panels and can automatically turn itself off during day and on at night. The Outdoor/street lighting systems are ultra-portable and fully solar-powered, which means no wiring, no external power source, no maintenance, and no power bills

Indoors Bulbs

If you are looking for some outdoor lights for your property that are efficient, economical, and eco-friendly then you have arrived at the right place. Visit our office or website www.ultratecworld.com and explore the options of brightness and related solar systems at the most affordable prices, for both industrial and domestic use

Sensor Outdoor & Indoor Lights

When choosing the right security lights for your home or office, there are many factors to consider before making a purchase. You'll want to think about the design, brightness, light range, and responsiveness. If you're looking to invest in high quality and affordable indoor & outdoor lights, **UltraTec** is the right place for you to acquire stylish lights that detect motion up to more than **8 feet** away and come with inbuilt solar panels & capacity to turn off itself during day

USB Chargeable Flame Lamp

Multi-purpose USB Chargeable Flame Lamp with warm yellow lights, forming a stunning realistic flame effect to build an extraordinary atmosphere. A nice feature and ambiance to your garden, great for BBQ, creates a gilt and balmy outdoor/indoor dinner experience and a glamorous refreshing compound!!

MESSAGE FROM TEAM LEADER

I bring greetings and appreciation to all of you from our Managing Director, Board and the entire **UltraTec** family.

As we continue to fight the invisible enemy that has changed the course of all aspects of business operations and human ways of life, our team continues to innovate and build on the best possible means to attend to all your energy needs.

The President of Uganda and Ministry of health have issued guidelines to relax the lockdown but have warned that we remain vigilant and follow all the health safety guidelines given by MoH & WHO. We take these precautions seriously to ensure the safety of our clients and customers as well as the entire country so as much as we've opened our office, we continue to encourage our clients to use our online platforms to contact us. We deeply regret all forms of inconveniences caused.

Our field technicians and engineers are now able to travel to perform site survey, systems installation, maintenance and upgrade, or attend to any of your energy needs. We can also remotely support you, please feel free to call us on **0772200007/758200007** or **WhatsApp** on **0758200007**.

Together we can defeat **COVID19** and recover our economy and social ways of life

For God and my Country

Mr. Richard WALUGEMBE
